

Equinox-2 swimming pools

above ground pools

Equinox-II 52" Pools

Aerodynamically curved 8" top rails follow the radius shape of the round ends of the swimming pool, exactly like a typical more expensive resin pool. Far more aesthetically pleasing in your garden setting than ordinary pools.

UNIQUE RADIUS COPING

All our Equinox II swimming pool kits include a patterned overlap liner, high rate sand filter, special filter sand media, self priming pump, widemouthed skimmer, hard plumbing pipe-work kit, & a choice of either an A-frame ladder or in-pool deck mounted pool ladder at no extra charge.
