

Lagoona

Lagoona 6.6m x 3.0m (depth 1.7m-1.1m)

These Fibreglass Pools and Swimsplas from Australia, have received one of the most prestigious industry awards in America. Recognised by an international panel of judges as being one of the world's best pool manufacturers 2001 & 2002. This honour has given the manufacturer the unique position in the market place of being the only swimming pool company in Australia to receive this distinguished award. For over thirty years they have been in the forefront of design and manufacture of fibreglass pools and now they have introduced a world first - *Marble Tech*. This new innovation in fibreglass technology has led them to be the largest swimming pool company in Australia with its unique high quality finish.

All pools are available *in Marble Tech* colours, Sapphire & Midnight

sparkle, also available with a Tuscany two tone copping boarder to contrast against any stone pool paving surround.

The benefits of purchasing the Lagoona pool are endless. Innovative design and manufacture means that this pool can be installed and backfilled without water.

Your new pool is complete with a factory backed fifteen year structural Guarantee. The pool walls incorporate fibreglass stiffeners, both the steps and outer lip of the pool have a strong non slip surface, and the large radius shape of the pool allows for ease when cleaning with an auto cleaner.

A special coating of epoxy based vinyl ester resin protects the interior of your pool against osmosis whilst a formulated black waxed resin flowcoat seals the interior. It is this total commitment to quality that has made them the leading pool manufacturer in Western Australia.
