

# xStream<sup>TM</sup> PRO

Interior Depth - 48" (122 cm)

Overall Depth 54" (137 cm)

Length: 16 1/2 feet / 198 inches (503 cm)

Width: 7 1/2 feet / 90 inches (229cm)

## With the exclusive Posi-Flo<sup>TM</sup> Jets: *A swimming phenomenon*

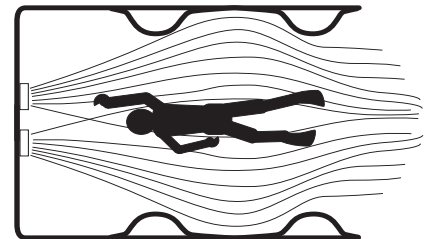

### Posi-Flo<sup>TM</sup> Jets

The high volume constant flow of the Posi-Flo Jets are unlike that of competitor's systems that require turbulence to sustain sufficient water movement. Such turbulence is difficult to swim against and causes disorientation in the water path. Posi-Flo actually aids you in maintaining proper swimming techniques. Strategically placed, dual Posi-Flo Jets allow both vertical and horizontal stabilization within the water's stream.

#### Vertical Stabilization

Keeps you swimming in the heart of the stream without sinking or bobbing.

#### Horizontal Stabilization

Prevents side to side movement. Keeps you centered in path of stream

**The xStreamPro with Posi-Flo<sup>TM</sup> helps you get a workout, not leave you worn out.**
