

The UK's premier Above Ground Pool Brand presents the new Garden Leisure range of pools. Our unique HOT pool package specification detailed in the left hand column includes our 3kw pool heater which comes complete with an RCD circuit breaker. The Garden Leisure range of pools are very easy to install which means you could be swimming within an hour of getting the pool home. Please note: On the larger pools i.e 15' & 18' the pool heater will serve to remove the chill factor of the water. Temperature gain will increase with use of the solar cover included.

12' x 36"
